

Its not called **SIMPLY THE BEST** for nothing.

Theres a very good reason.

The Brothers Islands. Daedalus Reef.

Elphinstone.

Taking in many of the Egyptian Red Sea's best sites this safari route visits the two main offshore reef that are on most divers' wish lists.

Sea Serpent is part of the Sea Serpent Fleet and makes her home at Port Ghalib - just minutes from Marsa Alam Airport.

Sea Serpent alternates between this itinerary and The Deep South aka Daedalus, Rocky, Zabargad and St Johns.

Simon Gardener's 20th Century Fish has been providing video services to the dive industry for 9 years.

Simon has moved on from Sea Serpent and is currently (2006) working as a guide and image pro on Royal Evolution based in the south of Egypt (www.RoyalEvolution.com).

Simon's misadventures can be tracked on his website. He's hoping to still be onboard Royal Evolution when the new boat starts going to Sudan later his year.
